Once you have entered the patient portal, click on the forms tab to complete your child's onboarding forms. Completing these forms before your child's appointment will save you time on the day of the appointment. If these are completed more than 24 hours before your child's appointment, it will allow our team to review your child's record ahead of time and reach out with any additional information we may need.

Any pending forms that require your consent will be added to the forms tab.
